ENGLISH LITERATURE OF THE NINETEENTH CENTURY.

E. C. & J. BIDDLE, No. 6 South Fifth street, Philadelphia, have recently published a new, stereotype edition of  
*English Literature of the Nineteenth Century*. On the plan of the author's "Compendium of English Literature," and supplementary to it. Designed for colleges and advanced schools, as well as for private reading. By Charles D. Cleveland.  
The "Compendium of English Literature," by Prof. Cleveland, comprises biographical sketches and selections from the writings of English authors, from the fourteenth to the eighteenth century, chronologically arranged; together with copious Notes, explanatory, illustrative, &c. The volume now advertised, which is arranged on the same plan as the "Compendium," comprises in its list of authors such as flourished in the eighteenth century, but died in the present; together with those strictly of the nineteenth century, whether living or dead.  
The present edition of "English Literature of the Nineteenth Century" contains biographical sketches and selections from the writings of one hundred and twenty authors, the names of twenty-seven of whom did not appear in the table of contents of the former edition; together with many improvements throughout the volume.  
The first two volumes of English Literature are now extensively used as text-books in colleges, academies, and the higher classes of seminaries, throughout the United States. The following opinions of distinguished writers, and of the *Nineteenth Century*, are selected from a large number equally commendatory of the work:  
From Prof. Chauncy A. Goodrich, D. D., of Yale College.  
"I consider Prof. Cleveland's 'English Literature of the Nineteenth Century' an appropriate sequel to his 'Compendium.' The author has shown the same just and definite appreciation of literary excellence in this, as in the former volume, and it reaches down to our times; it will be most interesting to a large portion of the public, and especially to the young. Few persons can understand what an amount of reading, thought, nice discrimination, and laborious codification of knowledge, are requisite to the production of such a work; and just in proportion as men toil more extensively in this field, will be the value of the work put upon this result of the author's labors."  
From George B. Emerson, Esq., of Boston.  
"I have examined your 'English Literature of the Nineteenth Century,' and I like it exceedingly. It is extremely well and fairly done. The biographical notices are just and discriminating, and the selection of our countrymen of knowledge, are requisite to the production of such a work; and just in proportion as men toil more extensively in this field, will be the value of the work put upon this result of the author's labors."  
From George B. Emerson, Esq., of Boston.

PROSPECTUS OF THE PROHIBITIONIST.

"If any spirit deems the retail and internal traffic in ardent spirits injurious to its citizens, and calculated to produce laziness, vice, or debauchery, if he seeks in the Constitution of the United States to prevent it from regulating or restraining the traffic, or from prohibiting it altogether, if he thinks proper,"  
Chief Justice Taney.  
ON or before the 1st of January, 1854, the Executive Committee of the New York State Temperance Society will issue the first number of a Monthly Temperance Journal, under the title of "THE PROHIBITIONIST."  
ITS SIZE.—It will be printed on a double medium sheet, making eight quarto pages, of four columns to a page; and, excluding advertisements, each number will contain an amount of reading matter equal at least to that furnished by our larger-sized daily journals, or to that of an ordinary duodecimo volume of 100 pages.  
ITS SUBJECT.—To advocate the Cause of Temperance generally, and especially the Legislative prohibition of the Traffic in intoxicating Beverages, to prepare the minds of the masses for such prohibition, by showing its expediency and necessity, and to secure, by the influence of its circulation, the vigorous enforcement of Prohibitory Laws when obtained.  
ITS FIELD.—Dealing with general principles, with arguments applicable to every community where the traffic exists, and with facts illustrative of its arguments and principles, the paper will be *National* in its spirit, in its scope, in its purpose, and, we trust, in its aim and execution. We desire to see the Principle of Prohibition established in State after State, till it becomes the recognized policy of the Nation; and we are anxious to see the traffic in this great work, and the *Prohibitionist* is established, not as the organ of a society merely, but of a GREAT REFORM MOVEMENT.  
ITS NATURE.—The *Prohibitionist* Temperance Journal, as far as its circulation outside of the Temperance ranks, their price almost necessarily restricts them to the friends of the cause. The *Prohibitionist* is designed for the friends of the cause, and as an organ of the cause, it will be *National* in its spirit, in its scope, in its purpose, and, we trust, in its aim and execution. We desire to see the Principle of Prohibition established in State after State, till it becomes the recognized policy of the Nation; and we are anxious to see the traffic in this great work, and the *Prohibitionist* is established, not as the organ of a society merely, but of a GREAT REFORM MOVEMENT.
